ESGR Volunteers,

I hope each of you enjoyed the New Year and there is nothing but peace and happiness in your future! As we move into the next phase of our calendar, I want to extend my sincere thanks to all our volunteers for your flexibility and cooperation with the recent training schedule change. Your professionalism and willingness to adapt ensure we continue to deliver consistent, high-quality support to our Service members, families, and employers across the state and keep all of us safe.

A special and heartfelt thank you goes to our Freedom Award Committee for the tremendous amount of time, coordination, and dedication you have invested. Your hard work behind the scenes does not go unnoticed, and it plays a critical role in honoring the outstanding employer support that makes our mission possible. Let's keep that streak going for Colorado!

Please keep an eye out for upcoming updates from Lexi, who will be sharing important information regarding future trainings and events. As always, thank you for your continued commitment to ESGR and for the teamwork that makes this organization so strong.

Sincerely,

Alison L Patton
